SUMMARY

Software Engineer with experience in designing and developing scalable systems using Spring Boot, React/Next.js, TypeScript, and PostgreSQL. Strong background in REST APIs, JWT authentication, WebSockets, and CI/CD with Docker. Focused on clean, optimized code, high performance, excellent user experience, and continuous adoption of new technologies.

EXPERIENCE

Junior Software Engineer

May 2025 - Present

International Trade Group Belgrade, Serbia

- EUK Softver – Developed a system for energy-vulnerable customers as the lead architect, designing a PostgreSQL database, a Spring Boot backend with REST APIs, JWT authentication, PDF/Word generation, and WebSocket notifications, alongside a React/Next.js frontend in TypeScript. Used Docker and CI/CD pipelines to support a scalable, real-time microservices architecture.
- HR Platform – Contributed to the development of a multi-tenant HR system, handling database modeling and application architecture. Built a React/Next.js frontend with TypeScript, PostgreSQL schema-per-tenant, REST APIs, JWT authentication, notifications, and admin modules, focusing on scalability, security, and performance.
- Women's Basketball Club Partizan – Developed a production-ready website using Next.js 14, TypeScript, and MongoDB/Mongoose, implementing REST APIs, JWT authentication, an admin panel, Cloudinary, and web scraping. Enhanced SEO and frontend performance with Tailwind CSS and Framer Motion for a fast, responsive experience.
- carbon.co.rs – Developed a responsive website using React, TypeScript, and Vite, with a modern UI built in Tailwind CSS and REST API integrations via Express.js and MongoDB Atlas. Implemented Cloudinary, email notifications, Docker, and Vercel deployment, with a strong focus on performance and user experience.
- Ongoing Systems – Continuously developed and maintained production systems, including ITG.rs and beyond, improving full-stack architecture and optimizing REST APIs within the Spring ecosystem, while adopting new technologies.

Freelance Projects

June 2024 - Present

- belgraderiverhouse.com – Developed an accommodation booking website using Next.js 14, TypeScript, and MongoDB, with JWT authentication, Cloudinary integration, and hands-on work with the Next.js App Router, REST APIs, authentication flows, and image management.
- Hike&Book (Master's Project, in progress) – Developing a full-stack hiking tour booking system with Spring Boot, PostgreSQL, and Next.js/React (TypeScript), featuring REST APIs, JWT authentication, role-based access, and Leaflet map integration. Gained hands-on experience in backend architecture, data modeling, and full-stack development.
- Roomify – Full-stack hotel booking app with Spring Boot, React, and PostgreSQL, featuring REST APIs, JWT authentication, and real-time WebSockets. Gained experience in backend development, real-time systems, and database optimization.

EDUCATION

MSc Software and Information Engineering, University Singidunum

- Thesis: Multi-Tenant HR Management Web Platform Development

09/2020 - 09/2024 Belgrade, Serbia Average grade: 10,00

Bachelor of Computer Science, Faculty of Informatics and Computing, Singidunum University

- Thesis: Development of an Android Travel Planning App with Firebase Firestore Integration

10/2024 - 10/2025 Belgrade, Serbia

REFERENCES

SKILLS

- Java
- JavaScript
- TypeScript
- Kotlin
- PostgreSQL
- MySQL
- NoSQL
- Spring Boot
- React.js/Next.js
- JUnit
- Docker/Kubernetes

TOOLS

IDE

- IntelliJ IDEA
- VS Code
- Android Studio
- Eclipse

Databases

- DataGrip
- DBeaver
- PGAdmin
- MongoDB Atlas

Cloud & DevOps

- Docker
- Kubernetes
- Azure DevOps Server
- AWS
- Firestore
- Vercel
- Render

Testing

- Postman
- Mockito

Version Control

- Git
- GitHub

CERTIFICATION

Software Engineer Intern

Hacker Rank 02/2025

Oracle Database Design and Programming with SQL

Oracle 05/2025

The Complete Android 14 & Kotlin Development Masterclass

Udemy 10/2024

Java 17 Masterclass

Udemy 06/2023

LANGUAGE

- Serbian (Native)
- English (Intermediate)

STRENGTHS

- Team player
- Self-Motivated
- Adaptable
- Problem solver

DAILY ROUTINE
